

# Prime-Line, Inc.

Doors, Mouldings, & Millwork

**GREEN PRODUCTS**

*Dedicated to environmental protection.*

Prime-Line's MDF & LDF is manufactured from 100% pre-consumer recycled or recovered wood residue, reducing the drain on our forests. Prime-Line products have never contained or been manufactured with any Class I or II ozone depleting substance as listed by the U.S. Environmental Protection Agency. Prime-Line products meet or exceed all voluntary limits for urea formaldehyde emissions in fiberboard products.

*Prime-Line now offers an optional No Added Urea Formaldehyde MDF & LDF*

- *Environmentally Preferable Product (EPP)*
- *Meets strict CARB (California Air Resources Board) requirements.*
- *100% recycled or recovered wood fibers*
- *Carries LEED Points*

"This seal is your assurance that the products you purchase are environmentally responsible. By purchasing these products, you'll be supporting one of the greenest industries on earth."
