

LEED® Credit Information

| CREDIT | INTENT | REQUIREMENTS | POSSIBLE POINTS | OUR SOLUTION |
|---|---|---|-------------------------------|--|
| Materials and Resources Credit 4.1: Recycled Content: 10% | To encourage the use of building products that incorporate recycled content. | At least 10% of project value must be recycled content. | 1 Point | Prime-Line, Inc products are manufactured from 100% pre-consumer recycled/recovered fiber, and may contribute toward this Materials & Resources credit. Refer to LEED® documentation for details about credit calculation. |
| Materials and Resources Credit 4.2: Recycled Content: 20% | To encourage the use of building products that incorporate recycled content. | At least 20% of project value must be recycled content. | 1 Point in addition to MR 4.1 | Prime-Line, Inc products are manufactured from 100% pre-consumer recycled/recovered fiber, and may contribute toward this Materials & Resources credit. Refer to LEED® documentation for details about credit calculation. |
| Materials and Resources Credit 5.1: Regional Materials: 10% | To encourage the use of building materials and products that are regionally extracted and manufactured. | At least 10% of project material must be extracted and manufactured within 500 miles of the project site. | 1 Point | Prime-Line, Inc products are manufactured in Malvern, AR, and may contribute toward this Materials & Resources credit. Refer to LEED® documentation for details about credit calculation. |
| Materials and Resources Credit 5.2: Regional Materials: 20% | To encourage the use of building materials and products that are regionally extracted and manufactured. | At least 20% of project material must be extracted and manufactured within 500 miles of the project site. | 1 Point in addition to MR 5.1 | Prime-Line, Inc products are manufactured in Malvern, AR, and may contribute toward this Materials & Resources credit. Refer to LEED® documentation for details about credit calculation. |
| Indoor Environmental Quality Credit 4.4: Low-Emitting Materials | To reduce indoor air contaminants and improve indoor air quality. | Refer to LEED® documentation or contact your Prime-Line representative for more information. | 1 Point | Prime-Line, Inc EcoTrim products may contribute toward this Indoor Environmental Quality Credit. Refer to LEED® documentation for details about credit calculation. |

Using PrimeCraft mouldings and boards in your next project can contribute toward up to five credits in USGBC's Leadership in Energy & Environmental Design (LEED®) Green Building Rating systems. For more information please contact your Prime-Line representative.

*Complies with formaldehyde emission requirements for MDF in CPA-ECC-2011, ANSI 208.2-2009 and CCR 93120 .3 (d) (CARB Composite Wood ATCM Phase II / TSCA Title VI compliant).

*All panels are approved for interior, non-structural application.

*Contains 100% Recycled/Recovered wood content.
